AFCEA Slovakia International Expert Conference
"CYBER DEFENSE INNOVATION & CYBER SECURITY TRENDS"

Organizer: AFCEA Slovakia

Co-organizer: Armed Forces Academy of General M. R. Štefánik (AFA) in Liptovský Mikuláš

Date: June 12-13, 2024

Place: AFA Campus | Demänovská cesta 393 | 031 01 Liptovský Mikuláš-Demänová

Under the Auspices of: Deputy Prime Minister of the Slovak Republic and Minister of Defence R. Kaliňák and Minister of Interior of the Slovak Republic M.Š. Eštok (IN PROCESS)

Objectives and focus:

The conference is focused on cybersecurity, searching for new innovations and building new capabilities in the environment of armed and security forces. The aim is to present current technological and technical solutions, as well as opportunities for cooperation with academic and the private sector. The conference will also include live demonstrations. One of the current crucial tasks of IT specialists is to build cyber protection capabilities against all types of cyberattacks on communication and information systems. State departments, due to the turnover of IT specialists, are unable to cope with these demanding tasks and monitor and reflect increasingly sophisticated attacks daily without cooperation with specialized IT companies, their scientific and development potential. This meeting of forces, public and private sectors create a space for establishing contacts and getting acquainted with current requirements and challenges, where it is possible to focus its activities, production and development potential.

Auditorium: Government representatives from the area of power departments, academia and scientific research and development base. Foreign Top managers from the field of: software and technology companies, defence industry experts Areas: legal standard-making, business management and representatives from the field of insurance, banking, energy and transport

Language of the Conference: English
